**Why Ear Gems Custom Molded Hearing Protection?**

~30 NRR (mean attenuation) which is far better than your student will get with foam plugs since they can rarely wear them correctly due to small ear canals. Nothing fits like a custom.

~Trained and insured. (Trained by the Audiologist that created this product 40 years ago. We have been serving our Nebraska students for over 10 years... we aren't going away.

~Cost-effective. Most students will wear their plugs for 2-3 years (far longer than most wear their sneakers, and Ear Gems certainly cost less than those sneakers!)

~We stand behind our product. If it breaks/tears we will replace it.

~Our clear coating creates a nonporous plug. This makes the Ear Gem easy to clean....no fungus!... Easy to insert and nearly impossible to tear or break.

**Each coach should have a list of those interested in purchasing a pair of Ear Gems that day so we can have an approximate count. But we will also fit walk-in customers as needed as well. Thank you.**

PLEASE NOTE>>>> We will mold the plugs the day of the event and mail to the coaches the processed plugs within **10 business days**. All the Ear Gems will be shipped to Brad Philson who will get them to the Lincoln Izaak Walton so as to help with shipping costs.
