LOST & FOUND

Please contact the office if you are missing any items.

2026 National High School Rodeo Association Finals in Lincoln

This year, Lincoln Ikes will be the host site for the NHSRA Finals shooting events, Light Rifle Competition and Trap Competition. This will affect some of our members' access during this time on the trap range as well as Rifle Range 2.

- They will begin setting up for these events on Sunday, July 19th, in the afternoon on the Rifle Range 2.
- Then, they will have a practice day on the Rifle Range 2 and the trap range on Monday, July 20th.
- On Tuesday and Wednesday, July 21st and 22nd, they will have their Light Rifle Competition Days and trap practice.
- On Thursday and Friday, July 23rd and 24th, they will have their Trap Competitions on these days.

We are looking for various volunteers throughout these special competition and practice days. In 2021, we were the host site for these events and it was a great time working together with the NHSRA folks as well as the competitors and their families, who come from all over (even other countries this year!).

If you are interested in volunteering at Lincoln Ikes during this special week, please let us know. We have some time before this event, but we want to get as much planning in place to help it run as smoothly as it can. Thank you for considering and please reply to ikes.lincoln@gmail.com if you would like to help.

Volunteers Needed!

Thank-you to our many volunteers who helped at our March 14th ECTC meet! We need more volunteers during our upcoming trap meets as noted above (April 4th and 25th). If you are willing and available or would just like to discuss this further for more details, please contact our Trap Chairman Dave Tunink at dtunink1971@gmail.com.

These trap meets usually require volunteers from 7:00 a.m. until they are finished, which can be mid to late afternoon. Thank you for considering.

Weather and Range Reminders

During the winter months, we try to get the parking lot and the roads leading up to Rifle/Pistol Ranges 1, 2 and 3 plowed as soon as possible. However, when we get a lot of snow or precipitation, all the traps and the cemented areas around the rifle and pistol benches/firing lines can be buried in snow and/or ice. With that in mind, we want all members to be aware of the following if they plan on shooting out here after inclement weather:

IF YOU ARE A RIFLE/PISTOL MEMBER:

1. You may need to scoop/clear your area first.
2. DO NOT GO OFF ANY TRAILS THAT HAVE NOT ALREADY BEEN PLOWED.

We cannot guarantee that someone will be out here to help at certain times.

IF YOU ARE A CURRENT TRAP MEMBER:

1. The area around the traps and the fan may not be cleared.
2. The locks will most likely be frozen. You can hold them in your hands for a while to warm them up if needed.
3. Make sure you warm up the machines PRIOR to arming and starting to throw the rocks.
4. You will have to clear any snow away from the machine and pump PRIOR to running it. With the wind that brings in snow, sometimes snow can get inside the traps. We welcome any volunteers who are willing to come clear these areas during these weather conditions. If you are able and interested, please contact the managers.

Clubhouse Rentals Available

We have a wonderful clubhouse that we have updated in various ways. If you are interested in renting our clubhouse and/or bar facilities, please contact our managers to check on its availability. **Renters who have been a member for more than six months will receive a reduced rental rate.**

Know Your Basic Range Commands

By Jeff Rawlinson

When shooting on the Lincoln Ike's rifle or pistol ranges, it is important that members communicate with each other.

This communication includes basic range safety commands that are universal and supported through the NRA.

These include:

“Cease Fire!”

- This command is utilized to denote to all range participants that shooting is to cease immediately. This can be called loud and aggressively by anyone on the range should something seem out of place or unsafe.
- This can also be used as a statement when closing the range down to make sure everyone is aware that shooting is to stop until further commands are given
- Upon hearing this command – all shooters should stop shooting and immediately lay their firearms on the bench to await further commands.

“Range is Closed (or Cold)”

- This is the command to denote that the business of shooting on the range is to stop, firearms unloaded, actions opened and removed from the bench.
- This command allows users to safely go down range to check targets (never allow anyone to go down range until all firearms are made safe).

“Range is Open (or Hot)”

- This command denotes an active range that is now open for use. This means users may bring firearms to the shooting line/bench to load and fire.
- Under more controlled events, this command could be followed by the “Load” and then “Fire at Will” commands

So...a typical range session may sound like this...“If we can have a Cease Fire I would like to close the range to check targets. “ Once all firing stops, you would follow up with the “Range Is Closed” command. Once all firearms are safe, users may check targets. Once everyone is safely back behind the shooting line and in agreement to begin shooting, it would be appropriate to give the “Range is Hot or Open” command. Remember, all shooters are wearing hearing protection, so make sure you give commands loud and proud.

There are several more commands but these three are the basics by which all users of the range should communicate with each other to keep the range operating safely. If anyone appears to be violating these commands, it is everyone's duty to address them politely and make sure they hear and understand the need for compliance. **Communication is key!**

Flea Bane

by Dan Morgan

Flea bane is found all over Ikes. Once I found the little white flowers all along the north side of Range 3, the 100-yard range. Back in pioneer days, bedding was made with cut grass. This often had bugs such as fleas, but they found the way to get rid of these: mix this little flower with the grass.

The game is quite simple. There are targets cut in the shape of four animals of progressive size set at four distances. For the .22 and field pistol the Chickens are at 25 meters, pigs at 50, turkeys at 75 and rams at 100. In the big bore classes the chickens are at 50 meters the pigs at 100 meters, turkeys at 150 meters and the rams at 200 meters. There are banks of five animals at each firing point, which are shot through twice each for a total 40 round course of fire. There is a thirty second loading period followed by a two-minute firing time for each bank of five targets. After shooting through each set of animals twice, you move to the firing point for the next animal. The average course of fire takes about 30 to 40 minutes.

We shoot three disciplines here at the Ikes, big bore, small bore (.22) and field pistol (center fire, straight walled cases no longer than 1.290"). Within these disciplines there are enough categories to accommodate almost any handgun you may own, either with or without a scope.

It is set up so that you can shoot several guns per match if you want. Your first score determines your class so you are only shooting against shooters of like ability.
